

PACT

Patient Adherence and Competency of Therapy

Improving Lives Reducing Costs

PACT is a pharmaceutical care service developed by **Good Value Pharmacy**. PACT increases the likelihood of positive outcomes for patients and decreases the likelihood that patients will be readmitted due to noncompliance with discharge instructions.

The PACT service model is based on the results of 300 scientific studies that demonstrate the increase in positive patient outcomes for patients under the interventional care of a pharmacist.

PACT Goals

- **Enhance** the Quality of Life for enrolled patients
- **Reduce** Readmissions and Emergency Department Visits
- **Promote** health competence and patient responsibility

PACT

Patient Adherence and Competency of Therapy

Through our Patient Adherence and Competency of Therapy (PACT) service we work directly with patients to ensure complete understanding and following of medication regimens and treatment plans.

PACT has three main features:

- Patient-friendly packaging
- Monthly profile reviews
- Free home delivery

To the patient or referring provider: Please call 262-925-0201 with the following information:

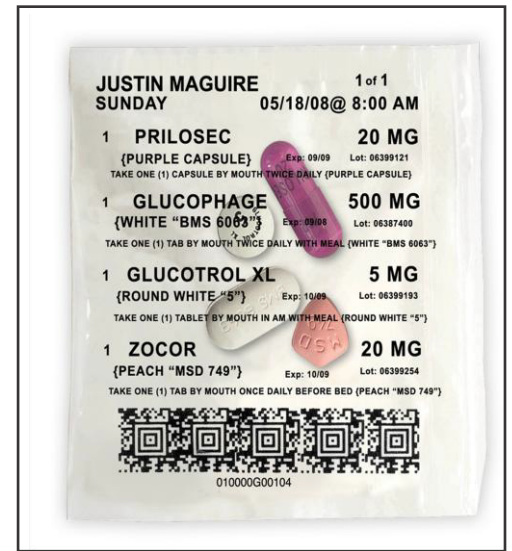

Name	Phone number
Date of birth	Address
Insurance information	Current pharmacy
Primary Doctor	Specialists
Current medication list	

PACT Service

- For patients who want or need help obtaining, organizing, understanding or taking their medications.
- AND
- For patients who need help with their medications to avoid hospitalization and emergency room visits.

Good Value Pharmacy PACT includes:

- Therapy Management
- Monthly Profile Reviews
- Home Delivery
- Specialized Packaging
- Medication History Review
- Frequent Phone Consults
- All of your daily medications are packaged together once a month in a roll of perforated plastic baggies.
- Each baggie has a date and time on it, and the medications that you take at that particular date and time are in that baggie.
- Your name and the medication names, strengths and pill descriptions are also printed on the baggie.
- We communicate with your doctors to ensure the accuracy of your medication regimen.
- We coordinate changes such as medications being stopped or dosages being adjusted.

- ACTUAL SAMPLE - One PAC easy open compliance packaging

- No more pill bottles
- No more pill boxes
- Speak to a familiar staff member
- Get personal service from your pharmacist without leaving the house
